PROFESSIONAL SUMMARY

Fresher Data Analyst with hands-on experience in Power BI, SQL, Excel, and Python (Pandas). Skilled in data cleaning, data modeling, DAX, and building interactive dashboards that deliver actionable business insights. Proficient in Power Query, Star Schema, KPI visuals, slicers, and time intelligence functions. Eager to apply data-driven solutions to support business decision-making.

TECHNICAL SKILLS

Power BI	Power BI Desktop, DAX (Measures, Calculated Columns), Power Query, Data Modeling, Star Schema, KPI Visuals, Slicers & Filters, Drill-Through, Row-Level Security
SQL	Joins (INNER, LEFT, RIGHT), Aggregations, Subqueries, GROUP BY, HAVING, Window Functions, CTEs
Excel	Pivot Tables, XLOOKUP, VLOOKUP, IF/IFS, Conditional Formatting, Data Validation, Charts, Power Query
Python	Python (Basics), Pandas, Data Cleaning, Exploratory Data Analysis
Soft Skills	Analytical Thinking, Problem-Solving, Attention to Detail, Communication, Teamwork, Time Management

CERTIFICATIONS

Deloitte Data Analytics Job Simulation Forage (Issued by Deloitte)	May 2026
• Completed practical tasks in Data Analysis and Forensic Technology, simulating real Deloitte analyst work. Verified by Deloitte CHRO.	

PROJECTS

Netflix Content Analytics Dashboard Python (Pandas), Power BI Desktop	2025
• Analyzed 8,000+ Netflix titles from Kaggle using Pandas — resolved null values in director/country columns, corrected datetime data types, and removed duplicate records to produce a clean dataset for visualization.	
• Built an interactive Power BI dashboard with slicers for Country, Rating, Year, and Content Type enabling self-serve data exploration across the full library.	
• Key findings: 70% of Netflix content is Movies; USA produces nearly 3x more titles than India (2nd place); content additions grew rapidly from 2015–2019 before slowing post-2020.	
Customer Sales Analysis SQL Server, Excel	2025
• Wrote complex SQL queries using JOINS, Subqueries, GROUP BY, HAVING, and Window Functions to extract and analyze customer transaction data from a relational database.	
• Performed customer segmentation based on purchase frequency and order value, identifying high-value customer cohorts to support targeted business strategies.	
• Cleaned and validated 5,000+ records by detecting NULL values, duplicates, and data inconsistencies; built Excel summary reports with Pivot Tables and charts, reducing manual reporting time by 40%.	

EDUCATION

B.Tech — Mechanical Engineering	2022 – 2025
Ananth Lakshmi Institute of Technology and Science, Anantapur CGPA: 8.2 / 10	
Diploma — Mechanical Engineering	2018 – 2021
Sir C V Raman Institute of Technology and Sciences, Tadipatri 76%	
SSC — Z P High School, Pedda Pappur	2018
90%
